---

The issuance of business license by the City of Alcoa is not a presumption of appropriate zoning and or use compatibility. All new Businesses and extensions of existing licenses shall conform to the use restrictions of the zoning district in which they are located. Any business license issued to an applicant that is found to be in conflict with the approved uses of a particular zone in which that business is or intends to locate is subject to revocation. This application process requires that you check with a representative of the zoning office to determine if the business intended on this application is allowed in the zone indicated by the business address. This acknowledgement also applies to businesses termed as "customary home occupations".

I have read and understand this statement and that it requires me to investigate the zoning of my business location concurrently with the application of this license. City of Alcoa building and fire inspectors require notification before occupancy.

Please check here only after reading the above statement.
